(IEEE PPM 6.2.5.B.5)

9.9.2 Conference Proceedings

1. The Computer Society requires that original papers in the proceedings of meetings it sponsors, cosponsors, or cooperates in be copyrighted and provides that individual papers may be reused/republished if the original copyright holder is appropriately informed (Section 6.17).

F. SECTION 16.1.1, BUDGET DEVELOPMENT

Motion 24F: King moved for the Constitution & Bylaws Committee, “MOVED, that the Executive Committee of the IEEE Computer Society approve the following revisions to the Policies & Procedures Manual Section 16.1.1, Budget Development.” Motion carried.

16.1.1 Budget Development

The committee is responsible for coordinating the budget development process.

1. Each year at the spring (first) meetings week, the Finance Committee will provide each program board with a budgetary target (or targets) for the following year.

2. Five months prior to the IEEE deadline, each program board will submit to the treasurer a plan and budget that meets the assigned targets, whether it is a limit on the program subsidy or a surplus of a certain size. The plan and budget will be constructed in budget decision module form with the aim of facilitating endorsement or amendment at subsequent steps in the budget approval process. Plans which require initial investments in a multi-year context are permitted. All new unfunded initiatives and plans are due five months prior to the IEEE deadline.

3. Any board may submit an appeal of its assigned target(s) with its plan and draft budget, attempting to demonstrate to the Finance Committee, Executive Committee, and/or Board of Governors why it should be amended. However, such an appeal shall not relieve the board of its responsibility to construct a plan and budget that will meet the target as assigned, but that plan may be supplemented with arguments as to why the target is inappropriate.

4. At the second meeting of the year the Finance Committee will review the recommended plans and make its recommendations regarding page budgets and pricing to the Executive Committee and Board of Governors for ultimate review and approval. This action, taken in the context of preliminary approval of all the other program budgets, largely establishes the income of the society for the following year.

5. At the second meeting of the year the Finance Committee will provide comments and suggestions, and possibly revised targets, for all program boards.

6. All program boards will submit to the treasurer final plans and budgets to meet their targets two (2) months prior to the IEEE deadline.

7. The Finance Committee will prepare a draft recommended budget for circulation 30 days prior to the IEEE deadline. The Finance Committee will consider any further information or appeals that any of the program boards wish to suggest, meeting in a formal hearing format.

8. The Finance Committee's final recommendations for the following year's budget will be presented to the Board of Governors for review, amendment, and approval no less than 15 days prior to the IEEE deadline1.

9. The final approved budget by the Board of Governors will be sent to the IEEE by the 1 September (IEEE deadline).

10. After the first year cycle (1991) of this modified budgeting and planning process the Finance Committee will extend the planning horizon by providing the

budgetary targets for two years out at the first meeting of the year, and each plan and
budget developed by the program boards will be required to include a second
projected year budget in addition to the budget plan for the following year.

11. Beginning with the third year (1993) of implementation of this process, the
budgetary planning horizon will be extended to three years.

10. The budgetary planning horizon is three years.
