- Purdue Univ.
- Samsung
- Sandia National Labs
- Stanford Univ.
- Univ. of Victoria
- U.S. Patent and Trademark Office
- WSP Canada
- Yale Univ.

Thirteen of the top 20 computer science graduate programs recruit with us.

Computer Society Jobs is very user friendly, and our opening garnered a lot of visibility from the posting.

Pricing is quite reasonable, and the customer service is excellent!

JO SCOFIELD, UTAH VALLEY UNIVERSITY

**IEEE
COMPUTER
SOCIETY**

IEEE

The IEEE Computer Society is the world's leading computing membership organization and a trusted source for worldwide computing information.

Connect with the Computer Society Jobs Board, where the global workforce of technology leaders seeks out career development opportunities. Reach software engineers, researchers, professors, students, IT professionals, and top-level candidates with security clearances. Find the right talent today.

 www.computer.org/jobs

When you post on the IEEE Computer Society Jobs Board, you are reaching candidates with the skills and experience required to benefit your organization.

Discover New Talent

- Reach 40,000 subscribers with your ad in the Build Your Career bi-monthly e-newsletter.
- Over 5,000 current resumes are available and full access is included with most job postings.
- Receive automatic resume alerts (essential when searching for hard-to-find skills).
- Advertise jobs for 30, 60, or 90 days, with customized packages available to fit your hiring needs and budget.
- 37% of our candidates have security clearance.
- Featured job upgrades provide 30% more visibility .
- Recruit undergraduates by posting summer/student internships for free.

Reach Computing Professionals in:

- Software engineering
- Cloud computing
- IT
- AI/Machine learning
- Security
- Development tools
- Programming languages
- Networking/communications
- Testing tools

Audience*

- 86% Bachelor's degree
- 35% Master's degree
- 33% Doctorate degree

I used the IEEE Computer Society Jobs website several times and have always found it very straightforward. We received quality applications and made an offer to a candidate. Your representatives were also very user friendly.
