Computer Entrepreneur Award
Call for Award Nominations
Deadline: 1 October 2020

In 1982, on the occasion of its thirtieth anniversary, the IEEE Computer Society established the Computer Entrepreneur Award to recognize and honor the technical managers and entrepreneurial leaders who are responsible for the growth of some segment of the computer industry. The efforts must have taken place over fifteen years earlier, and the industry effects must be generally and openly visible.

The award is a museum-quality sterling silver chalice commissioned from Washington DC artist Michael Schwartz. The gold-plated crown below the cup displays the alternating symbols of the IEEE and the Computer Society, supported by clusters of laurel leaves, an ancient symbol for outstanding achievement.

Nomination Information
• Requires 3 endorsements
• All members of the profession are invited to nominate a colleague who they consider most eligible to be considered for this award.
• Nominations are being accepted electronically by 1 October 2020 to bit.ly/computer-entrepreneur
