

Nomination Questions for Harlan D. Mills Award

(Important - This is not the official nomination form; please login into the [IEEE CS awards nomination site](#) to submit your nomination electronically.)

1. Nominee's contact information

2. Nominator's contact information

3. Proposed Citation

Give a brief citation indicating the most salient reason the nominee is qualified for the award.

Examples: "For contributions to..." / "For developments in..." / "For leadership of (in)..."

Word count: 0 / 20

4. Professional Employment Affiliations

List the nominee's professional employment affiliations and titles. List dates of employment (if known).

5. Education

List the nominee's educational background (institutions, degrees, years, and honors at graduation, if any).

6. Criteria for Outstanding Record

Explain to what extent the nominee fulfills the following criteria and give evidence of an outstanding record in the general area of software engineering. This should include introducing practical and theoretical advances in this area. Recipients of this award should show many years of advancing Mills' goals of tackling the challenges of software production, applying personal abilities to project a vision of the nature of those challenges, developing field trials and experiments, and participating extensively in encouraging students and others in the study of software engineering.

(a) Documenting Evidence

Evidence documenting an outstanding record and/or introducing practical or theoretical contributions in the area of information sciences, focusing on software engineering. **Word count: 0 / 600**

(b) Publications

List publications or references to the nominee's published or professional work. **Word count: 0 / 600**

(c) Technological Advancements

Leading or developing significant technological advancements in software engineering. (Be sure to identify the contribution in full as well as its significance and scope in advancing the area of software engineering.) **Word count: 0 / 600**

(d) Stature Among Peers

Achieving stature as a practitioner, manager, teacher or researcher of renown in the area of software engineering, to include involvement in the development of commercial products and academic curricula. **Word count: 0 / 600**

7. Other Factors

If pertinent, list any additional information the selection committee should review that has not already been documented on the nomination form. This information should further identify the outstanding record of the nominee and contribute in elucidating the magnitude of the nominee's accomplishments in the general area of distributed computing systems. **Word count: 0 / 400**

8. Endorsements

A minimum of three (3) and maximum of five (5) endorsement letters are required and must be submitted by the award deadline.

You must include the endorser's contact information as follows:
Full name and a valid email address.

The nominator cannot be an endorser. It is recommended that the nominator contact the endorsers directly prior to finalizing the nomination form to confirm their willingness to participate and to explain the scope candidate(s) achievements as it relates to the award.

The endorser will automatically receive a message with a link to write or upload a letter once the contact information is inputted by the nominator. Nominators may log into the nomination site to check the status of letters received. If the email reminders are not reaching the endorsers, please contact awards@computer.org for further assistance.

9. Upload a file

Nominators have the option to upload a document to submit an attachment. The attachment must include responses to all nomination questions for the award criteria. **Same word count applies.**

FAQ's

- Anyone may nominate. IEEE Login is required. Membership in IEEE or the IEEE CS is not required to nominate, endorse, or receive IEEE CS awards.
- Self-nominations are not accepted.
- Franchised Board of Governors members cannot nominate or endorse major award nominations.
- Please direct awards related questions to **awards@computer.org**.

Go to <http://bit.ly/computersocietyawards> to enter the IEEE CS Awards Nomination Site.
