The IEEE SustainTech Leadership Forum—a new event focusing on sustainable technologies for buildings and factories.

27–28 August 2024 • San Diego, California, USA

2024 SPONSORSHIP PROSPECTUS

ieeesustaintechexpo.org
Be a part of the IEEE SustainTech Leadership Forum, a new global thought leadership event on technology for sustainability that brings together industry change makers for critical problem solving.

At the IEEE SustainTech Leadership Forum, you’ll connect with industry leaders, investors, and potential clients who can accelerate your business growth.

As a sponsor, you will:

• Gain exposure for your technologies among C-suite executives, top technologists, policymakers, and other decision-makers looking to buy or promote cutting-edge market-ready sustainable technologies.
• Position your technologies in front of buyers and investors. Meet and discover new collaborators for future projects.
• Distinguish your brand as a leader in sustainability technology.
• Enhance the visibility of your products and sustainability initiatives among influential leaders and decision-makers from government, organizational change managers (OCMs), and end-users.
• Benefit from being affiliated with the event via inclusion in marketing and promotions.

Program Leadership Board

• Clara Li - Sr. Principal Engineer, Wireless Standards, Intel
• Kevin Ng, PE, CEM - Energy and Sustainability Manager, NVIDIA
• Damir Novosel - President, Quanta Technology
• Farzin Shadpour - Managing Director, San Francisco Ventures
• Sanyogita Shamsunder - Prior roles with Verizon and Google
• Anthony Vetro - President & CEO, Mitsubishi Electric Research Labs (MERL)
• Jae Hyung Yi - Research Fellow, LG Electronics

DEMONSTRATE YOUR COMMITMENT TO SUSTAINABILITY

IEEE SustainTech Leadership Forum is where industry professionals source solutions to meet their sustainability objectives.
MEET NEW CUSTOMERS

Join us for the IEEE SustainTech Reception, taking place on Tuesday, 27 August.

Reception Sponsor (exclusive)—$10,000

This exclusive sponsorship delivers a prime platform for networking, offering opportunities for expanding your professional connections, exploring new ideas, and forming impactful partnerships.

- Engage with like-minded professionals, industry leaders, and potential recruits from diverse backgrounds.
- An intimate reception setting provides highly-targeted opportunities for networking, idea exchange, and recruitment.
- Enhance your collaboration efforts by maximizing your visibility and establishing new connections.

SPEAK WITH TECH PROSPECTS/COLLABORATION OPPORTUNITIES

Discover new collaborators/partners to seek funding and exchange ideas on sustainable end-use technologies for current and future projects.

Capture the attention of technologists, representing the end-user community (Enterprises, OEMs, National Labs), who are responsible for purchasing and developing technologies for sustainability at scale. Meet and speak with tech partners and prospects who are adopting novel technologies and are able to accelerate business growth efforts.
Branding Exposure at Networking Functions

IEEE SustainTech Leadership Forum gathers the brightest minds in sustainable technology, creating the perfect platform to showcase your company's products and sustainability initiatives to a face-to-face highly engaged audience.

Government Agencies need to stay abreast of the latest technological practices to inform their policies, regulations, and standards. Their participation contributes to broad environmental goals via their collaboration with industry professionals.

Technology Suppliers produce energy-efficient systems, smart building solutions, and renewable energy integration. This group seeks technologies that enable their development of innovative solutions that reduce environmental impact.

Major Tech Companies lead the charge in the adoption of Net Zero goals and overall sustainability initiatives. Showcasing their collaborative efforts, partnerships, and technology solutions allows them to demonstrate their commitment while also making a positive impact on the industry.

System Integrators incorporate smart systems, energy-efficient technologies, and automation to meet the needs of sustainable buildings and factories. At SustainTech, they will seek technologies that will enhance the sustainability of buildings.

Architects design with a focus on sustainable practices, incorporating energy-efficient features, and eco-friendly. SustainTech allows them to stay updated on the latest innovations and network with suppliers providing sustainable building technologies.

Designers, Technologists, and Engineers implement sustainable solutions and ensuring efficient energy systems and environmentally friendly construction techniques. SustainTech is where they will find technology solutions and leading practices.

Property Portfolio Owners and Managers seek to maximize the value of their properties by enhancing efficiency, reducing operational costs, and meeting the growing demand for environmentally conscious real estate. At SustainTech they will source solutions that will help them meet these objectives.

Who Will Attend IEEE SustainTech?

IEEE SustainTech Leadership Forum is where C-suite corporate executives, sustainability officers, technologists, futurists, and government and regulatory representatives convene to source new technology solutions, learn about technical challenges related to sustainability, and get insights on the future of sustainability technology.
IEEE SustainTech Leadership Forum
