

IEEE Computer Society Digital Library Magazines Package

The **IEEE Computer Society Digital Library (CSDL)** is the premier collection of computing periodicals. The Magazines Package gives you access to all 12 magazines, including all archives, contained in the CSDL.

The Content You Need

- *Computer*
- *Computing in Science and Engineering*
- *IEEE Annals of the History of Computing*
- *IEEE Computer Graphics and Applications*
- *IEEE Intelligent Systems*
- *IEEE Internet Computing*
- *IEEE Micro*
- *IEEE MultiMedia*
- *IEEE Pervasive Computing*
- *IEEE Security and Privacy*
- *IEEE Software*
- *IT Professional*

Superior Features

- Responsive interface for use on desktop and mobile.
- Free RSS feeds notify your users of newly added content of interest.
- Daily updates, including preprints for all periodicals, allow for immediate access to new articles.
- Multiple options for searching and browsing to serve various needs.
- Clickable math in all HTML documents enables users to cut and paste equations and formulas for immediate use.
- Multimedia and web extras for select articles provide a deeper understanding of the research.
- A customizable welcome message for your institution is automatically generated.
- Download citations in multiple formats makes creating bibliographic references easier.
- ACM metadata exchange allows for single searches across both collections.
- OpenURL and XML Gateway enabled to lead your users to the appropriate resource.

Incredible Value!

Save 40% off the total cost for all individual magazine subscriptions. Plus, you get all the benefits of online functionality, including archival access. Our Magazines Package is ideal for academic institutions with limited budgets or only undergraduate programs.

Your organization might qualify for a free trial.
