

IEEE Computer Society Digital Library

The premier collection of computing periodicals and conference proceedings

The **IEEE Computer Society Digital Library (CSDL)** is the best research tool for all of today's hottest computing topics—including cybersecurity, big data, the Internet of Things, cloud computing, and predictive analytics—along with an unparalleled archive of invaluable research.

The Content You Need

- Unlimited, full-text access to over 800,000 top-quality articles and papers.
- 42 peer-reviewed periodicals, with complete archives.
- More than 9,000 conference publications.
- Access online publications before printed issues (sometimes months in advance!).

Superior Features

- Responsive interface for use on desktop and mobile devices.
- Free RSS feeds notify your users of newly added content of interest.
- Daily updates, including preprints for all periodicals, allow for immediate access to new articles.
- Multiple options for searching and browsing to serve various needs.
- Clickable math in all HTML documents enables users to cut and paste equations and formulas for immediate use.
- Multimedia and web extras for select articles provide a deeper understanding of the research.
- A customizable welcome message for your institution is automatically generated.
- Download citations in multiple formats makes creating bibliographic references easier.
- ACM metadata exchange allows for single searches across both collections.
- OpenURL and XML Gateway enabled to lead your users to the appropriate resource.

Magazines

- *Computer*
- *Computing in Science and Engineering*
- *IEEE Annals of the History of Computing*
- *IEEE Computer Graphics and Applications*
- *IEEE Intelligent Systems*
- *IEEE Internet Computing*
- *IEEE Micro*
- *IEEE MultiMedia*
- *IEEE Pervasive Computing*
- *IEEE Security and Privacy*
- *IEEE Software*
- *IT Professional*

Conference Proceedings

Over 9,000 IEEE Computer Society conference publications bring together the most current research in newly emerging and established areas of computing. New titles are added weekly and archives date back to 1995.

Journals

IEEE Transactions on:

- *Affective Computing*
- *Artificial Intelligence*
- *Big Data*
- *Cloud Computing*
- *IEEE/ACM Computational Biology and Bioinformatics*
- *Computers*
- *Dependable and Secure Computing*
- *Emerging Topics in Computing*
- *Knowledge and Data Engineering*
- *Mobile Computing*
- *Parallel and Distributed Systems*
- *Pattern Analysis and Machine Intelligence*
- *Services Computing*
- *Software Engineering*
- *Visualization and Computer Graphics*

Letters

- *IEEE Computer Architecture Letters*
- *IEEE Letters of the Computer Society*

Incredible Value!

A subscription to CSDL provides you with a **31% discount** off the price of individual periodicals. Plus, you get access to all conference proceedings at no additional cost. This is ideal for any academic or government institution that needs comprehensive and trustworthy computer science and engineering information.
